

## C3 RACE BODY FOR SALE

I have this race body for sale and am asking \$1500. That's about 1/3 of what it's worth.

It's high-quality black fiberglass and attaches with Zeuss fasteners. Came off a c3 but will fit other models. C2 I know for sure.

It will have to be picked up in bossier city Louisiana as it isn't really shippable. This was a road course car running a dry sump 383 so it has been retrofitted for that setup.

Body panels have been stored inside enclosed trailer and were only taken out to photograph. Need the room in my trailer.

Thanks,
